VEGGIE SUPERHEROES

Veggies to the Rescue!
The broccoli superhero looks like a little green tree that you can eat. It grows above the ground and has big leaves that grow with it.

The broccoli superhero is sometimes forgotten about because of its small size and its green colour. Although it might be little, this mighty green vegetable is known to have superpowers that make you strong.

Where does broccoli get its superpower strength from?
It comes from a source called vitamin C.

When you eat it, your body and the broccoli work together to give your immune system a power boost! This means it gives YOU the superpower of fighting off unwanted germs. It keeps you healthy and stops you from getting sick.
Snack Idea:

What you will need:

- 1 cup of broccoli
- ¼ cup of hummus

What you will do:

- Carefully break up the broccoli into bite sized pieces using your hands and put them on a plate.
- Add about a ¼ cup of hummus.
- Dip the broccoli into the hummus and enjoy!
The carrot superhero stays hidden underground because it is a root vegetable. To eat it and gain its superpowers, we must pull it from the ground to reveal its bright orange colour.

The carrot superhero is strong and grows fast underground. But it is so strong that it sends its green stem and leaves upwards towards the sky.

Where does the carrot get its superpower strength from? From a source called vitamin A.

This vitamin will give you good, healthy eyes. Although it won’t give you night vision, it will help you to see clearly!
Snack Idea:

What you will need:

- 2 cups of carrots
- 2 tablespoons of butter or olive oil

What you will do:

- Wash the carrots.
- Carefully slice them to be around the same size.
- Place a skillet over medium heat and add the butter or olive oil.
- Add the carrots and cook until the carrots are soft.
- Remove from the heat and enjoy!
ASPARAGUSTUS

The asparagus superhero shoots up from the ground towards the sun. To gain its superpower, we eat the tall green part that grows towards the sky. The asparagus superhero takes a long time to grow because it has to have very strong roots in the ground. Once the roots are strong and the asparagus starts to grow, it keeps coming back to your garden year after year!

Where does the asparagus get its superpower strength from?
From a source called fibre.

Fibre is a very special power because it keeps you feeling full for a long time. It also gives you a strong and healthy heart, which allows you to continue on superhero adventures!

- Chill in the fridge or eat right away. Try dipping vegetables in!
The potato superhero also grows under the ground but it shoots up green leaves above the ground. The green leaves produce so much power that the power is stored in the root (or the potato) underground. The potatoes are done harvesting energy and power underground once the plant tops die. The plant tops die so that the last energy can go down into the potato.

Where does the potato get its superpower strength from?
From a source called potassium.

The power from potassium is what makes your muscles and nerves function.
